AREA FLOORS

Home is a reflection of our freedom and identity. It's a place where we can comfortably walk barefoot after a long day. It's where our children grow up, sharing sweet moments together. Our cat accompanies us every step of the way, leaving behind joyful memories.

Your home expresses who you truly are. It's authentic. That's precisely why we introduce the Authentics Collection. This collection meticulously mirrors real wood, infusing your space with authenticity and sophistication. With its unparalleled 3D structure, it offers an exceptionally natural appearance. And, above all, this collection stands out with its undeniable durability.

We've designed it for real homes and real people. Personalize your space with the Authentics Collection and let your true self shine. Experience every moment in your home with natural beauty and superior durability. Feel the authenticity at every step with the Authentics Collection."

# Click System

Area Floors products utilize Unilin locking systems, UniClik and UniDrop, which are groundbreaking, unique locking systems for SPC flooring. Thanks to their easy installation features, they enable everyone to change their flooring quickly and effortlessly.

UniClik requires no additional tools or professional assistance during the assembly of its parts. It offers a fast and reliable way to install the floor.

UniDrop, on the other hand, is a one-piece, downward-folding technology that provides superior locking performance without the need for plastic parts and ensures easy installation for the short edges of the panel. This glueless locking profile is an enhanced version of the Unipush technology.
